

Enabling Cookies in Internet Explorer 6, 7, or 8

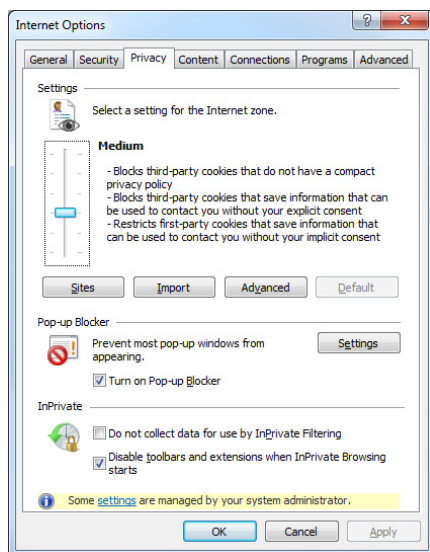

It is possible that you are having difficulty logging into the Patriot Federal Credit Union's new eBranch site. If you enter your Login ID and then click the "Sign In" button and come right back to the login page, you may have cookies blocked in your browser.

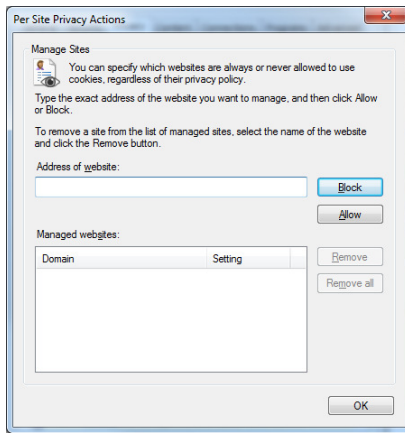

You can complete the following steps below to enable cookies for the home banking site:

Follow these simple steps to enable "Cookies" in Internet Explorer 6,7, and 8 for Patriot's eBranch.

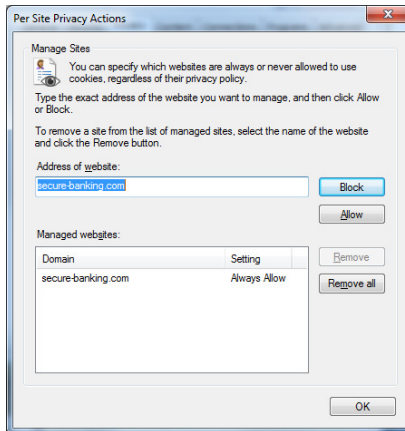

1. Open your browser, and select Internet Options from the Tools menu at the top.
2. Now on the option screen select the Privacy tab.
3. Make sure the slider on the left is not set to "Block All Cookies" (highest setting). We do not recommend you set your security setting lower than "Medium."

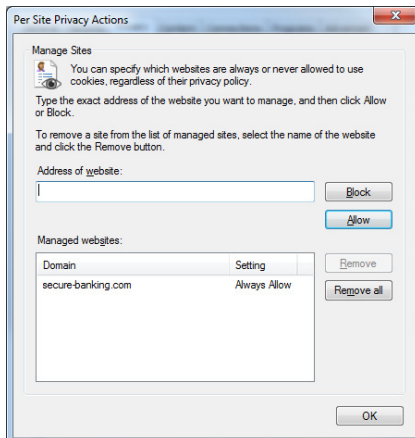

4. Click on the "Sites" button for web sites.

5. Enter “secure-banking.com” into the “Address of website:” dialog and click the “Allow” button. The address should be added below to the “Managed websites” area.

6. Click the “OK” button at the bottom of the “Per Site Privacy Actions”

7. Click the “OK” button to close the “Internet Options” dialog box.
