

Turn off Pop Up Blocker in IE 6, 7, 8

It is possible that you are having difficulty logging into the Patriot Federal Credit Union's new eBranch site. This may be caused by Internet Explorer's Pop-Up Blocker. You can disable the Pop-Up Blocker for Patriot's eBranch by completing the following steps.

1. Open your Internet Explorer version 6, 7 or 8.
2. On the Tools menu, point to Pop-up Blocker, and then click Pop-up Blocker Settings.

3. Type "*.secure-banking.com" without the quote marks in the box labeled "Address of Web site to allow." Then click the "Add" button.

4. Click the "Close" button. This will disable pop ups only for Patriot's eBranch site.
