Beware of Scam Mailers Disguised as Official Credit Union Notices

Imagine you receive a letter in the mail that looks urgent and official. It mentions your property, has "FINAL NOTICE" printed boldly, and even includes what appears to be a refund check. At first glance, it might feel like good news – maybe you're owed money. But then you notice some odd details: there's no signature, the fine print says it isn't a real check, and the letter urges you to **"Call IMMEDIATELY."**

What would you do?

Unfortunately, these types of mailers are often scams designed to catch your attention and pressure you into calling. When people call the number provided, they don't reach their financial institution – instead, they get connected to someone trying to sell extended warranties or service contracts for home appliances or other products. This bait-and-switch tactic uses fear and urgency to push a sales pitch completely unrelated to the "final notice" or refund mentioned in the letter.

How to Protect Yourself from These Scams

If you receive a mailer like this, here are some important steps to take before you call any numbers or provide personal information:

1. Do Your Research

Search the phone number and the name of the bank or company listed on the mailer along with words like "review," "complaint," or "scam." Many times, others have reported similar experiences online.

2. Verify with Your Financial Institution Directly

Use trusted contact information – from their official website, your statements, or the back of your debit/credit card – to reach out. Ask if the mailer is legitimate.

3. Take Your Time

Legitimate companies won't pressure you to act immediately. If you're interested in extended warranties or service contracts, research the company, ask for written information, and consult trusted friends or family before making a decision.

4. Report Suspicious Mailers

If you or someone you know has received a questionable mailer, report it to the Federal Trade Commission at [ReportFraud.ftc.gov](https://www.ftc.gov/report-fraud). Your report can help protect others from falling victim.

At Patriot Federal Credit Union, your safety and security are our top priorities. Always be cautious with unexpected mail and phone calls asking for your personal or financial information. When in doubt, reach out to us directly at 888-777-9982 – we're here to help.

A Message from the CEO

Amid all of the political turmoil and economic uncertainty, Patriot remains financially sound and thriving. We experienced better than expected 1st Quarter financial results and are optimistic about the second half of the year.

Interest rates remain steady although the consensus of prognosticators leans toward a decline in rates as we move into the 2nd of half of 2025. Some economists suggest that our country is overdue for a recession, and there may be signs to support that, however, most see it as a possibility and not a foregone conclusion. A number of factors contribute to the likelihood of a downturn, including slow global growth, economic uncertainty, a reduction in government spending, and the wild card impact of tariffs. Tariff talk appears to have influenced consumer behavior, spurring auto sales in March, April and May.

On the other hand, a stronger labor market and reduced trade tensions could signal a potentially contrary perspective. The tariff talk 'yo-yo' appeared to have pushed the stock market into negative territory and then calmed the market . . . essentially moving from a bear market to the start of a bull market. The most recent market volatility has been positive, but it remains unclear as to the direction of the market, particularly heading into August when the current trade agreement between the US and China ends.

Over the past several months, challenges have surfaced in the Credit Union movement. First, there were talks about removing the credit union not-for-profit tax status in Congress, however, those have subsided. Currently, changes in the structure and leadership of our regulator (the National Credit Union Administration) are being challenged in the courts. Credit unions have a different mission and structure than for-profit banks. As a member owned cooperative, not a publicly traded company with shareholders, credit unions focus on serving the financial needs of our members, resulting in lower fees, better loan rates, higher savings rates, more personalized financial service for members, and a stronger sense of community engagement.

For example, Patriot aims to make financial services convenient and accessible to members and prospects in our market area with an emphasis on financial literacy, inclusivity as a Juntos Avanzamos designated credit union, and through community engagement that supports our mission of People Helping People.

As I mentioned earlier in this letter, auto sales appeared to have been boosted by the tariff talk with consumers deciding to buy before car prices increased or 'FOMO' (Fear of Missing Out) due to reduced new vehicle inventory. Small business lending has also been a bright spot, as were home improvement loans through Patriot's home equity offerings. On the other hand, mortgage lending remained extremely soft due to a combination of relatively high interest rates and limited local home inventory.

Nationally, the US Personal Savings Rate - which measures the amount of income that households, businesses and governments save - is around 4% in 2025, less than half of the savings rate our country has averaged over the last 65 years. Locally, Patriot

is seeing a slightly different story as share balances across the board are increasing as members retain more than they spend at a higher level, perhaps as a "flight to safety" to pause from the volatility of the stock market and other more risky investments. To encourage even more savings, one of the first enhancements we made was to increase the balance that we offer dividends to \$25,000 on our Dividend Checking. Stay tuned for more to come.

While we are not immune to economic turns, up or down, our geographic market generally experiences fewer highs and lows. Patriot also remains committed to investment and expansion to better serve our Field of Membership. Two new branches are currently under construction with planned fall openings: North Antrim Way in Greencastle and our first West Virginia branch - located on the Williamsport Pike at Brown Road near Spring Mills High School in Martinsburg.

Going forward, Patriot is focused on improving the services that our members most regularly utilize, particularly our self-service and digital products and services like online and mobile access. For example, we introduced a new user-friendly surcharge-free ATM locator on our web site. Recently, we introduced improvements to our phone system to better serve the members who connect with our contact center. And we are in the process of updating and enhancing our online bill pay, online banking, and mobile banking channels -you can expect to begin to see subtle changes throughout the remainder of the year and more significant ones to follow to improve accessibility and convenience, and enhance security.

As we invest in these delivery channels, we are also looking for efficiencies to offset the expenditure to add them and balance member value. As a result, we will be sunsetting services and channels that are sparsely utilized. As you will read elsewhere in this newsletter, we will be discontinuing the once popular but now lightly used telephone banking service—SmartLine—as members have consistently transitioned to online and mobile banking. Several low volume ATMs have recently been taken out of service on the Meritus Medical Center and Hospital campus, and by the end of September the same will occur at locations in McConnellsburg, St. Thomas, and north of Chambersburg near Greenvillage.

We are proud to have repeated as top credit union by VerStandig Broadcasting listeners as the "Best in the Tristate", selected as "Ben's Pick of the County" for banks and credit unions by the Franklin County Free Press, and continued our streak of 32 consecutive years earning a Bauer Financial 5-Star rating for safety and soundness.

I wish all of you a wonderful summer season and thank you for the trust and support that you have placed in Patriot. These are exciting times at YOUR credit union, and we will continue to invest in the future and bring value to you, our member-owners, and the communities that we serve.

Sincerely,

Ron Celaschi
CEO - Patriot Federal Credit Union

The following sections (2, 3 & 6) of your disclosure are updated as follows:

1. LONGER DELAYS MAY APPLY - In some cases, we will not make all of the funds that you deposit by check available to you on the same business day that we receive your deposit. Depending on the type of check you deposit, funds may not be available until the second business day after the day of your deposit. The first \$275.00 of your deposits, however, may be available on the first business day after the day of your deposit. If we are not going to make all of the funds from your deposit available on the same business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees, or if we decide to take this action after you have left the premises, we will send you the notice by the day after we receive your deposit. If you will need the funds from a deposit right away, you should ask us when the funds will be available.

- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.

Funds from deposits of cash, wire transfers, and the first \$6,725.00 of a day's total deposits of cashier's, certified, teller's, traveler's, and federal, state, and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you. The excess over \$6,725.00 will be available on the ninth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first \$6,725.00 will not be available until the second business day after the day of your deposit. Funds from all other check deposits will be available on the twentieth business day after the day of your deposit.

All ATMs that we own or operate are identified as our machines.
