

Setting up VisiBill in Bill Pay

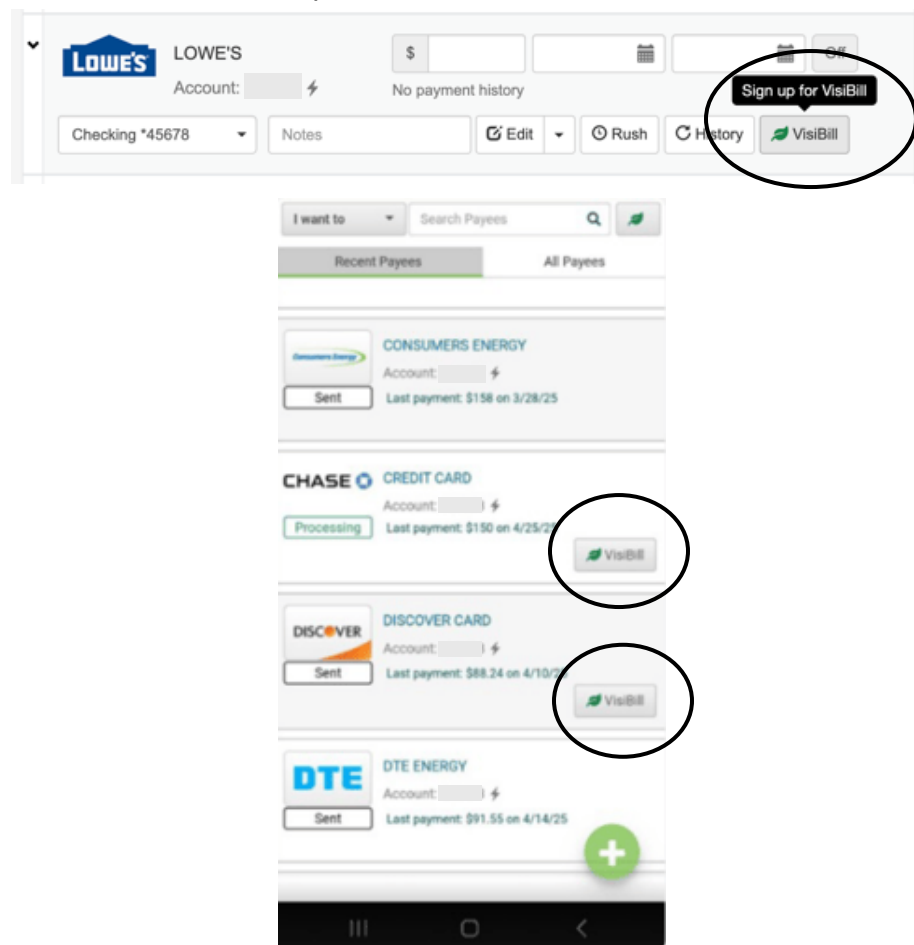

VisiBill makes it easy to view and pay your bills online by connecting your billers directly to the bill pay system. Many major credit card companies, automotive finance companies, and more can be set up for VisiBill.

VisiBill makes it super easy to stay on top of your bills by giving you access to the latest balances, due dates, PDF statements, and so much more—all while allowing you to pay everything from one handy spot!

Setting up VisiBill in Bill Pay

For any payee that is eligible for VisiBill, you'll find the **VisiBill** button when you navigate to a payee and expand the view.

1. Locate your payee and click to expand the view.
2. On both desktop and mobile, click the **VisiBill** button.

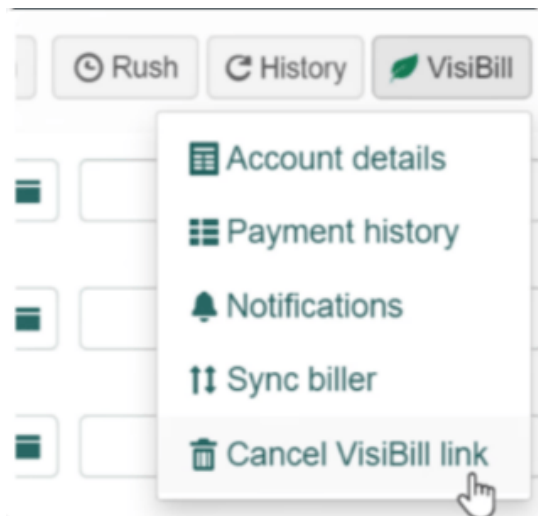

3. Complete verification with your **username** and **password** for your account with that biller.
4. Click **Sign in and get my bills!**

💡 *If you've previously signed up for eBill you will need to re-sync any eligible accounts with VisiBill.*

VisiBill Options

Once your VisiBill link is established, you can easily access and manage your billing information through several useful options.

How to View VisiBill Options

1. Click on the desired **payee** to expand the view.
2. Click the **VisiBill** button to see available options.
 - a. **Account Details** – View details related to your account with the payee.
 - b. **Payment History** – Access a history of all your past payments.
 - c. **Notifications** – Manage your notification preferences for VisiBill per payee.
 - d. **Sync Biller** – Refresh the connection to the payee to update Account Details.
 - e. **Cancel VisiBill link** – Disconnect VisiBill without deleting the payee.
